About Me

I am passionate about tech. I started learning at a young age, and never stopped. I am highly motivated to apply my skills towards creating meaningful change in the world.

I am outgoing. I enjoy and excel at face-to-face communication, public speaking, collaboration, and leadership. I clearly document my code. I also enjoy beer!

I am humble. I realize how lucky I am to be here. I am also interested in important social issues such as mental health awareness and intersectional feminism.

Work Experience

Software Developer - RideCo   May - Aug 2014
 - Full stack web application developer on a small team
 - Learned fast as I worked alongside our technical cofounder
 - Implemented and tested several new features
 - Adhered to high standards of code quality in code review
 - Earned an excellent performance evaluation
 - Received an offer to return for my next work term

Software Developer - RideCo   Jan - Apr 2015
 - Returned to a hectic pre-launch schedule
 - Implemented our payment processing system
 - Redesigned our checkout flow and added one-click checkouts
 - Communicated effectively within a larger team
 - Showed initiative by suggesting and implementing new ideas
 - Performed a web security audit and discovered vulnerabilities

Volunteering

Mentor - Big Brothers Big Sisters   Oct 2012 - Mar 2013
 - Responsible role model for local youth

Orientation Leader - UW Math   Sep 2014
 - Led over 100 first-years through orientation
 - Organized icebreaker activities
